

SAEED MAHUDAWALA

saeedmohammad743@gmail.com • 9081177582 • Dabhoi-391110

SUMMARY

Experienced and enthusiastic person aiming to leverage acquired industry and academic skills, knowledge and contribute to team success through hard work, attention to detail, decision making and excellent organizational skills. Motivated to learn and grow in the field of Data Science.

WORK EXPERIENCE

Senior Data Processing Analyst

Apr 2024 - Present

- Conducted performance tuning and optimized existing workflows, decreasing data processing time by up to 40%, leading to faster insights.
- Provided mentorship to junior analysts and led training sessions on best practices in data processing, fostering a culture of continuous improvement within the team.
- Responsible for data cleaning and transforming data into a standard format for 350+ retailers on weekly and monthly frequency on the basis of specified timeframes of delivery.
- Point of contact of raw data reception and designing format of processing for retailers based on requirements.

Data Processing Analyst

Sep 2022 - Mar 2024

- Managed project timelines, reducing delivery times by 30%.
 - Collaborated with cross-functional teams, enhancing project success rates by 10%.
 - Utilized SQL and Python for complex data queries, data manipulation, and automation of recurring data processing tasks, enhancing productivity and minimizing manual intervention.
-

EDUCATION

Master of Science in Statistics

The Maharaja Sayajirao University of Baroda

Mar 2020 - Apr 2022

- CGPA : 7.13/10

Bachelor of Science in Statistics

Mar 2017 - Apr 2020

The Maharaja Sayajirao University of Baroda

- CGPA : 7.03/10
-

PROJECT - SALES ANALYSIS

- Developed an end-to-end analysis of sales data to identify trends, forecast future performance, and provide actionable insights.
 - Analyzed customer purchasing patterns, seasonal trends, and product demand across multiple regions to improve strategic decision-making.
 - Collected, cleaned, and analyzed data from sales transactions, customer demographics, and external market data sources.
 - Utilized Python and SQL for data cleaning and preprocessing, ensuring data accuracy and consistency across datasets.
-

SKILLS

- **Technical Skills:** Statistics, Data Analysis, Predictive analysis, Data Visualization, Time Series Forecasting.
- **Programming Languages:** Python, SQL, R Programming, Power BI, Tableau.
- **Certifications:** Data Analysis with Python : Zero to Pandas
- **Awards/Activities:** Received the "MVP" Award for outstanding contributions to Onboarding project, process improvement.
